Renewables Portfolio Standard Verification Report

The *Draft Commission 2007 Verification Report* details for the California Public Utilities Commission (CPUC) the Energy Commission's Renewables Portfolio Standard (RPS) procurement verification findings by select retail sellers of electricity under California's RPS.

The *Draft Commission 2007 Verification Report* presents and includes analysis of RPS procurement verification findings for 14 retail sellers, which includes investor-owned utilities (large and multi-jurisdictional utilities) and electric service providers. This report also includes an update to Pacific Gas and Electric Company's 2004-2006 RPS procurement amounts and PacifiCorp's 2005-2006 procurement amounts.

The *Draft Commission 2007 Verification Report* is available from the Energy Commission's website under "Other Documents" at:

Process

On January 31, 2011, Energy Commission staff held an RPS procurement Verification Data Review Workshop to publicly present the initial results of the verification process for this report. Several entities provided public comments following the workshop. Staff considered these public comments when preparing the draft staff report.

On April 14, 2011, the *Draft Staff 2007 Verification Report* was posted for public comment. Following the April 2011, public review period of the report, PacifiCorp and Southern California Edison Company (SCE) submitted comments regarding their 2007 RPS procurement claims. Also, SCE submitted its revised 2007 RPS procurement claims, as a result of its discussions with Energy Commission staff. As appropriate, staff incorporated these stakeholder comments and revised RPS procurement claims, including an update to findings on SCE's procurement. These changes are reflected in this *Draft Commission 2007 Verification Report*.

The *Draft Commission 2007 Verification Report* (Publication # CEC-300-2011-002-CMD) was released May 27, 2011. An electronic version of the marked-up edited version of the report is available upon request.
